

## Page/Word Limits and Using APA 7<sup>th</sup> Edition

**Page/Word Limits:** Although the journal does not mandate a page/word limit on articles, the preferred length of a submission (excluding references) is 20 pages (6500 words).

**APA Guidelines:** Authors are expected to follow APA 7<sup>th</sup> edition guidelines. Authors are asked to pay special attention to the appropriate use of section headings, in-text citations and the inclusion of a DOI in the reference citations whenever these are available.

**Tables, Figures, and Charts:** Tables, figures, and charts must be no larger than 4” (width) by 7” (height). Low resolution images of tables, figures and charts are not acceptable. Please note that tables should not include any extra spaces or extra tabs. Place titles and captions within tables, figures, and charts. To see instructions on creating tables and figures in Word for SWC manuscripts, go to:
